(54) Title: SAFETY SYSTEM FOR LIQUID FUEL TANK

(54) Titre : SYSTEME DE SECURITE POUR RESERVOIR A CARBURANT LIQUIDE

(57) **Abstract:** The invention relates to a plastic fuel safety system comprising a liquid fuel tank, consisting of (i) a filler pipe which is equipped with a guide for a pump nozzle and which comprises a sealing device, (ii) a normally-open float valve for the degassing and venting of the tank and (iii) a conduit for channelling the vapours and for fixing the maximum level of the liquid in the tank. The aforementioned conduit connects the upper part of the tank with an area located downstream of the sealing device and all of said pipe is disposed inside the tank and the filler pipe.

INTERNATIONAL SEARCH REPORT

International Application No

PCT/EP 03/10191

A. CLASSIFICATION OF SUBJECT MATTER
IPC 7 B60K15/04

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
IPC 7 B60K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

* Special categories of cited documents:

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

T later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

X document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

Y document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
